Compact design, powerful performance

The RICOH IM C320F, M C320FW, and P C375 are designed to seamlessly integrate into any workspace. RICOH's Managed Print & Automation Services portfolio now includes these three new A4 colour models, offering tailored printing solutions for every organisational demand.

Small-scale and efficient

The IM C320F, M C320FW and P C375 are designed to fit small spaces, delivering the high functionality and performance you expect from Ricoh. These space-saving solutions deliver powerful performance, making them ideal for any business environment.

Pioneering eco-friendly printing solutions

Designed with sustainability in mind, the RICOH IM C320F, M C320FW, and P C375 colour A4 devices are leading the way in environmentally friendly print solutions. The device mainframe is made from over 50% post-consumer recycled plastic, reducing the environmental impact of production and disposal. Additionally, the devices use less plastic packaging, with toner packaging being 100% plastic-free. With low Typical Energy Consumption (TEC) values, these A4 colour devices are an excellent choice for environmentally conscious organisations.

Carbon Balanced Service

Understanding that sustainability is a priority for many organisations, we have designed the Carbon Balanced Service for customers looking to elevate their environmental responsibility.

This service enables you to offset your carbon footprint by supporting verified carbon reduction projects, making it easier to achieve your sustainability goals.

Blue Angel Mark certification

The RICOH IM C320F, M C320FW, and P C375 has achieved the Blue Angel Mark certification, meeting the highest standards of environmental, health and functional quality. By choosing these devices, you can enjoy high-quality printing and scanning while contributing to a more sustainable future.

Unlock your print service potential with RICOH @Remote

The IM C320F, M C320FW, and P C375 come equipped with RICOH's @Remote technology, allowing you to track device usage in real-time, improve workflows and maintain your print devices efficiently.

Choose your versatile print and multi-function intelligent devices

Easy to use in a streamlined compact design, IM C320F, M C320FW, and P C375 are the perfect additions to your workspace. With fast warm up time of less than 32 seconds, and a print speed of 32 ppm single-sided, they are unrivalled in efficiency.

IM C320F – The multi-function device for all your digital and printing needs

- Enhanced scan speed of 30ipm (simplex), 60ipm (duplex) for increased productivity
- 6GB RAM memory
- Improved 7-inch Smart Operation Panel (SOP) with capacitive touch
- Low TEC value 0.30kWh
- Access to RICOH Intelligent Support for 24/7 device uptime
- RICOH Always Current Technology for the latest security standards and automatic updates

M C320FW – The multi-function device when you need versatility

- Enhanced scan speed of 30ipm (simplex), 42ipm (duplex)
- 512MB RAM memory
- Low TEC value 0.33kWh
- 4.3-inch full colour touch panel

P C375 – The printer for high quality A4 colour printing

- 2GB RAM memory
- Low TEC value 0.32kWh
- 4-line LCD panel

Experts in workplace experience

At Ricoh, we take a holistic approach to delivering end-to-end workspace solutions for business transformation across the globe. Our market-leading print devices, integrated print software and innovative technology solutions are central to our unique digital services portfolio.

We are dedicated to providing first-grade customer service and best-in-class workplace solutions. Unlock the full potential of your print infrastructure with Ricoh's range of managed services and innovative solutions.

For more information on how the IM C320F, M C320FW and P C375 can revolutionise your printing and digitalisation experience, contact your local Ricoh representative.
